## **ABSTRACT**

This brainstorming session and panel discussion picks up where WikiSym 2005's panel on the Future of Wikis stopped. Throughout the workshop's Open Space sessions, we will delve into different aspects of the future of Wikis, culminating in this session's group discussions hosted by keynote speakers Ward Cunningham, Angela Beesley, and Mark Bernstein, Meatball Wiki editor Sunir Shah, and Eugene Eric Kim (Blue Oxen Associates). These hosts will then participate in a panel discussion reporting what they heard and sharing their own insights into the future of Wikis.
